

March 8, 2012

Seasonal Job Losses Below Historic Average; Unemployment Rate 8.7%

The seasonally adjusted unemployment rate for Arizona in January was 8.7% (see Figure 1). The unemployment rate for December 2011 was revised upward from 8.7% to 9.0%. As a consequence of the annual benchmarking process, unemployment rates for prior months were also revised. See pages 4 and 5 for details on this year's annual benchmarking. The U.S. unemployment rate in January fell two-tenths of a percent from 8.5% in December to 8.3% in January.

Over-the-month job losses are typical in January. Arizona lost 34,300 or -1.4% of the Nonfarm jobs in January (see Figure 2). Leaner hiring in the fourth quarter was a contributing factor for lower than average seasonal losses in January. The recent ten-year average (2002-2011) was a loss of 59,700 Nonfarm jobs or -2.4%. The pre-recession ten-year average (1996-2007) was -2.4% or a loss of 55,500 jobs.

**NOTE: This release reflects benchmarked data.
See pages 4 and 5 for more details.**

Figure 2

Jobs were lost in both the Private Sector (-27,000) and Government (-7,300). The majority of the losses in the Private Sector were seasonal. Retail Trade (-8,700) and Employment Services industries (-6,500) lost the most jobs, reflecting typical staff reductions after the holiday shopping season.

The losses in Government (-7,300) were primarily due to higher than average seasonal losses in Local Public Education (-9,700). Although State Public Education has historically lost jobs in January, school scheduling changes have resulted in an uncharacteristic over-the-month gain in jobs (+2,600).

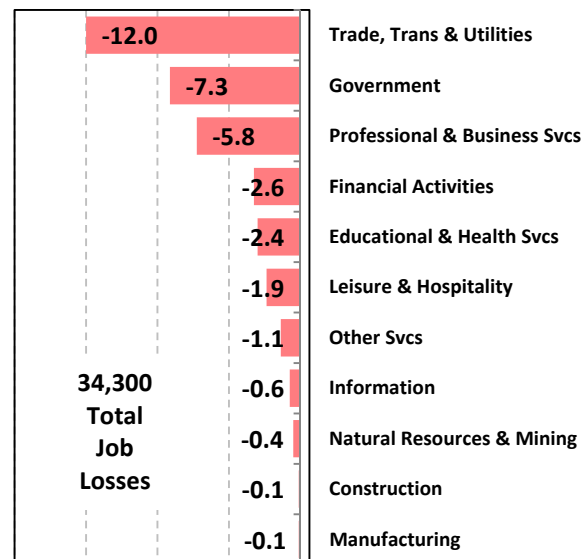

All eleven major sectors lost jobs in January (see Figure 3).

Figure 3

Trade, Transportation and Utilities (TTU) accounted for a little more than a third (35.0%) of total nonfarm job losses. TTU lost 12,000 jobs, of which 8,700 were in Retail Trade. Retail Trade employment typically scales back in January after the holiday shopping season. The ten-year average (2002-2011) for Retail Trade in January was a loss of 13,600 jobs.

With a net loss of 7,300 jobs, Government accounted for 21.3% of the total nonfarm employment losses, second among the major sectors. Above average seasonal losses in Local Public Education (-9,700) were partially offset by gains in other Government agencies and an uncharacteristic gain in State Public Education (+2,600).

Over-the-Month Job Change by Sector, in thousands

Professional and Business Services (PBS) accounted for 16% of Total Nonfarm employment losses. PBS lost 5,800 jobs. Within PBS, Administrative and Support and Waste lost 7,700 jobs led by losses in Employment Services (-6,500). These losses were likely the result of reductions in temporary holiday help. Management of Companies and Enterprises lost 200 jobs. Professional, Scientific, and Technical Services gained 2,100 jobs offsetting some of the losses.

The Financial Activities sector lost 2,600 jobs, slightly below the ten-year average (-2,800). Both reported industries within the sector posted losses, with most of the losses occurring in the Finance and Insurance industry (-1,600).

Educational and Health Services (EHS) lost 2,400 jobs. Within EHS, the Educational Services industry, which includes private education, had losses (-2,000) higher than the ten-year average (-900). The Health Care and Social Assistance industry lost 400 jobs.

Over the month, Leisure and Hospitality (LH) had below-average seasonal losses of 1,900 jobs.

Construction lost 100 jobs or -0.1% well below the average (-5,700 or -3.3%). The Construction Sector has significantly reduced the size of its workforce over the last few years and companies now tend to have much leaner staffing levels.

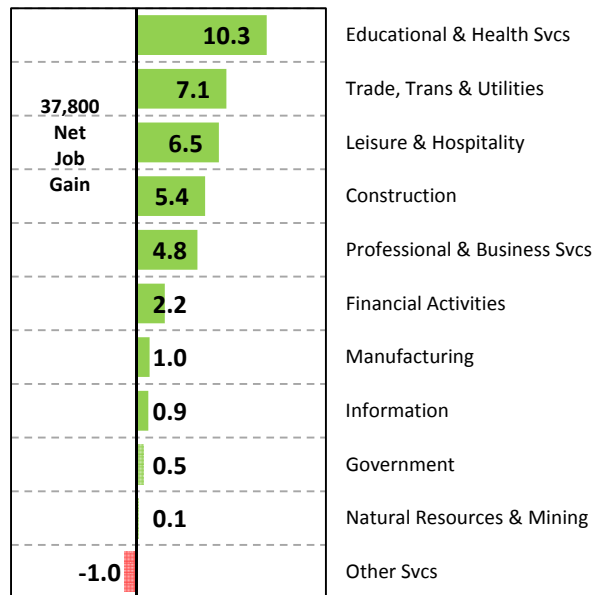

Over-the-Year Changes

Over the year, Arizona had a net gain of 37,800 jobs or 1.6% (see Figure 4). Ten of the eleven major sectors gained jobs. Only Other Services lost jobs (-1,000).

Educational and Health Services (EHS) had the largest gain over the year (+10,300). Within EHS, the Health Care and Social Assistance Industry gained 10,500 jobs with a small offsetting loss of 200 jobs in the Educational Services industry.

Figure 4

**Over-the-Year Job Gain or Loss
by Sector, in thousands**

Trade, Transportation, and Utilities (TTU) added 7,100 jobs. Gains in TTU were led by gains in Retail and Wholesale Trade (+6,800 and +1,100, respectively) and offset by losses in Transportation, Warehousing, and Utilities (-800).

Leisure and Hospitality (LH) added 6,500 jobs over the year. Within LH, the Accommodation and Food Service industry added 6,300 jobs and Arts, Entertainment, and Recreation added 200 jobs.

The Construction sector added 5,400 jobs. Gains in Construction were in the Specialty Trades (+6,100) and Heavy Construction (+300) industries. The Construction of Buildings industry lost 1,000 jobs.

Professional and Business Services (PBS) added 4,800 jobs. Within PBS, Professional, Scientific and Technical Services added 2,400 jobs, Services to Buildings and Dwellings added 2,200, and Management of Companies and Enterprises lost 200 jobs.

The Financial Activities sector added 2,200 jobs over the year. Within Financial Activities, the Finance and Insurance industry added 2,500 jobs while the Real Estate and Rental and Leasing industry lost 300 jobs.

Summary

The seasonally adjusted unemployment rate for Arizona dropped to 8.7% from the revised December rate of 9.0%. The U.S. unemployment rate in January fell two-tenths of a percent from 8.5% in December to 8.3% in January. Over-the-month Nonfarm job losses are typical for January. There were 34,300 Nonfarm jobs lost in January, lower than the historical average. Leaner hiring in the fourth quarter of 2011 was a contributing factor for lower than average seasonal losses in January. The Private sector (-27,000) and Government (-7,300) both lost jobs. Losses in the Private sector were in Retail Trade (-8,700) and Employment Services (-6,500) driven by staff reductions post holiday season. Losses in the Government sector were driven by above average losses in Local Public Education (-9,700). Gains in State Public Education (2,600) offset some of the Government losses. All eleven sectors lost jobs over the month. The top three sectors with job losses were Trade Transportation and Utilities sector (-12,000), followed by Government (-7,300) and Professional and Business Services (-5,800). Financial Activities (-2,600), Educational and Health Services (-2,400), and Leisure and Hospitality (-1,900) had modest losses.

Over the year, Arizona had a net gain of 37,800 jobs or 1.6%. Ten of the eleven major sectors gained jobs and Other Services lost jobs (-1,000). Educational and Health Services had the largest gain of 10,300 jobs. Trade, Transportation, and Utilities sector gained 7,100 jobs, of which 6,800 were in Retail Trade. The Construction Sector gained 5,400 jobs. Leisure and Hospitality added 6,500 jobs.

Annual Benchmarking Revisions (CES - Establishment Survey Data)

Every year prior to the release of the January estimates, the Current Employment Statistics program (CES) revises previous estimates by incorporating data from the Quarterly Census of Employment and Wages (QCEW). QCEW is a Bureau of Labor Statistics (BLS) program which provides a count of 98% of Total Nonfarm employment, based on Unemployment Insurance records. Information on the remaining 2% of employment is obtained from other sources, and the QCEW data is adjusted to obtain a 100% count of employment.

The replacement of CES estimates with adjusted data from the QCEW program is called **benchmarking**, and the new employment figures are often referred to as **benchmarked data**. Quarters for which QCEW data is not yet available are re-estimated using the latest available sample data. Last year, the revision process used QCEW employment counts from April 2009 through September 2010.

With the publication of the January 2012 Arizona and sub-state estimates, CES employment figures from April 2010 through June 2011 have been updated using the adjusted QCEW employment counts, and estimates for July 2011 through December 2011 have been replaced with new estimates. The new CES estimates have been incorporated in this release.

Changes observed due to these revisions

The revisions indicate that Arizona's Nonfarm employment was stronger than originally reported from the third quarter of 2010 through the second quarter of 2011. Revisions also indicate that the last two quarters of 2011 performed marginally better than originally reported in terms of Nonfarm employment. The revised 2011 annual average employment for Arizona was 2,405,500 jobs, which was an upward revision of **4,700 jobs or 0.2% (see Figure 5)**.

According to the 2011 annual average employment data, the Professional and Business Services, Other Services, Financial Activities, Construction, Natural Resources and Mining, and Information sectors were revised upward. Educational and Health Services, Government, Manufacturing, Leisure and Hospitality, and Trade, Transportation and Utilities performed weaker than initially reported and were revised downward.

Figure 5

2011 Pre- and Post-Benchmark Annual Average Employment (in Thousands)

Sector	2011 Pre-Benchmark	2011 Post-Benchmark	Change	Percent Change
Total Nonfarm	2,400.8	2,405.5	4.7	0.2%
Natural Resources and Mining	10.9	11.6	0.6	5.8%
Construction	111.1	111.7	0.6	0.5%

Leisure and Hospitality	260.1	259.1	-1.0	-0.4%
Other Services	86.6	89.6	3.0	3.4%
Government	412.0	410.4	-1.6	-0.4%

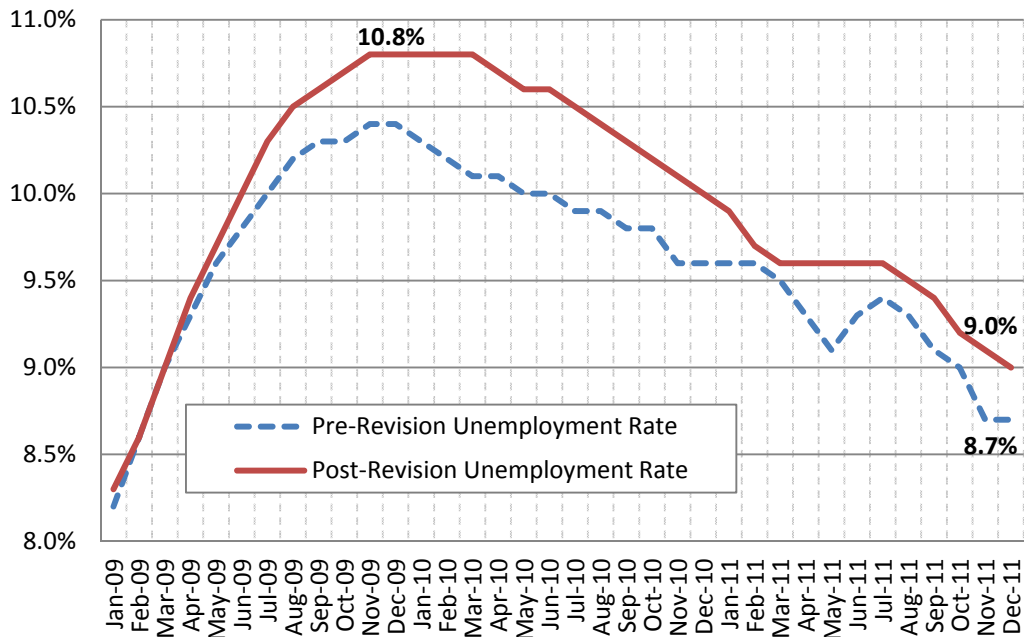

Unemployment - (Household Survey Data)

Unemployment statistics cannot be benchmarked in the same way as employment statistics, because there is no BLS program which provides an actual count of the unemployed. However, the Local Area Unemployment Statistics (LAUS) program estimates - for the labor force, employment, unemployment and the seasonally adjusted and unadjusted unemployment rates for all states - are also revised annually to incorporate new data. This year Arizona statewide LAUS data were revised for years 2007 through 2011.

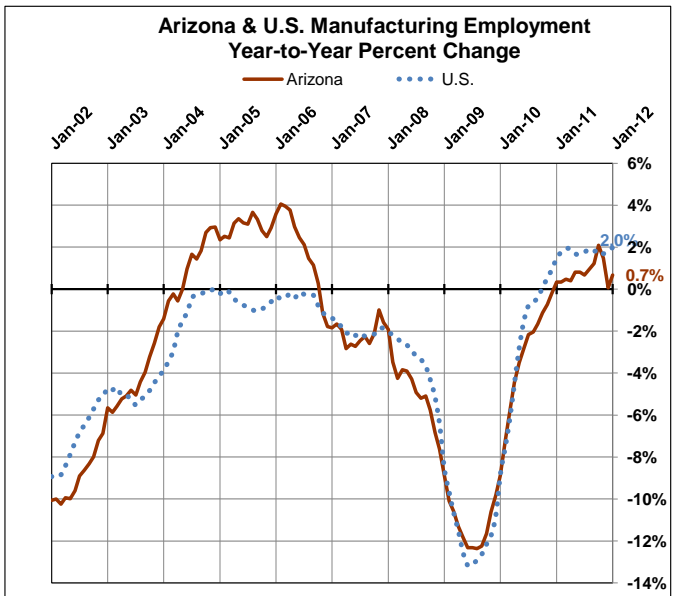

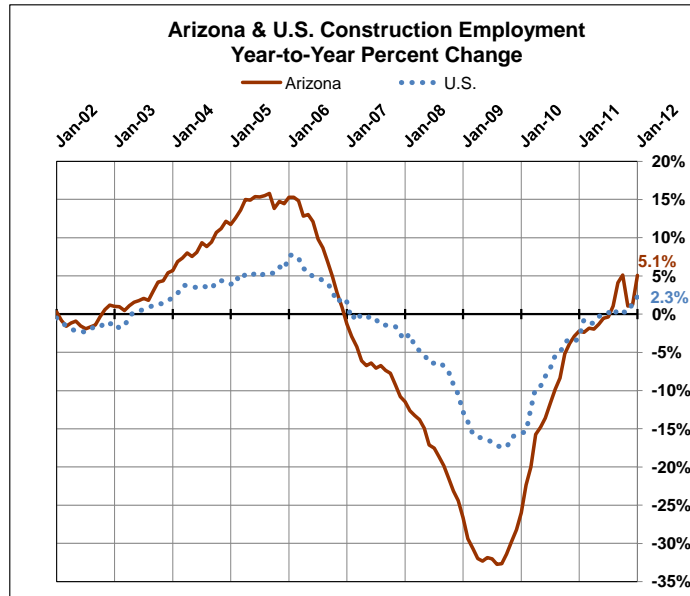

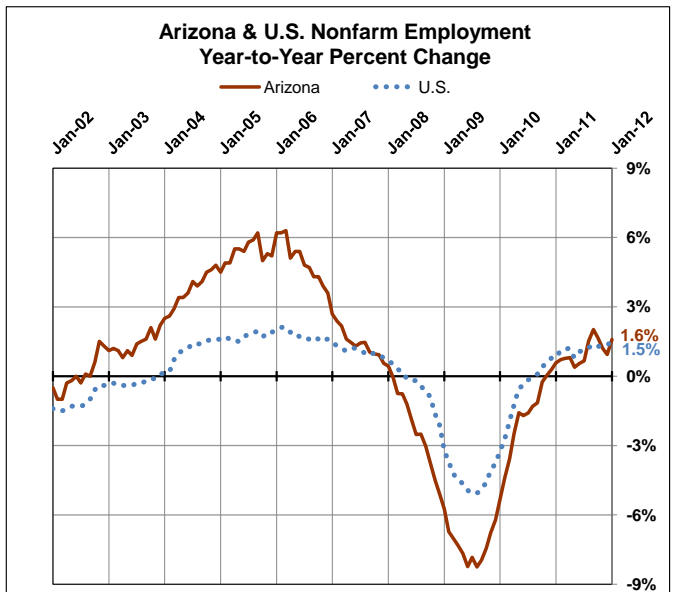

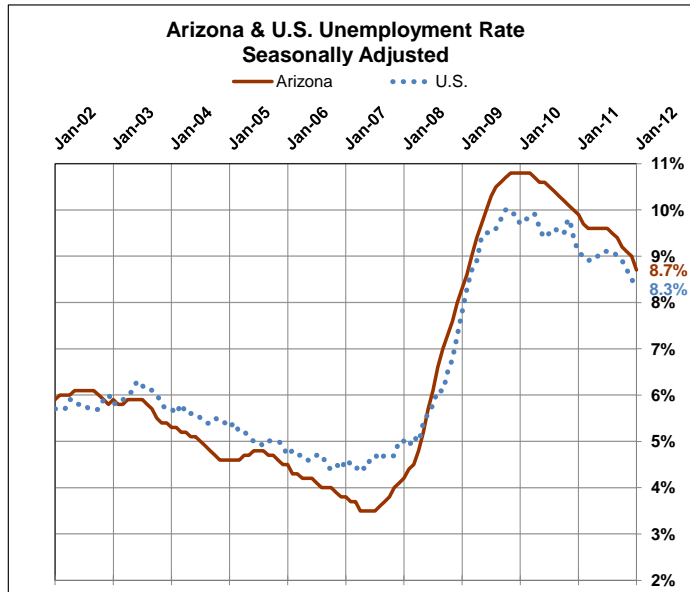

The latest figures indicate that Arizona's seasonally adjusted unemployment rate has been on a generally declining trend for the past two years (see Figure 6). Since reaching a high point of 10.8% in November 2009, Arizona's rate has trended downward. December's unemployment rate was revised upward from 8.7% to 9.0%. January's unemployment rate of 8.7% is the lowest since peak unemployment.

About This Publication

Arizona's Workforce is published 14 times a year by the State of Arizona Office of Employment and Population Statistics (EPS) — 12 times as the monthly Employment Report and twice a year as a two-year Forecast Report. EPS is the state agency responsible for labor market information and demographic data for the state of Arizona.

Material published in *Arizona's Workforce* is in the public domain and can be reproduced without further permission. Appropriate citations are requested.

Next Release:

February Employment Report, Thursday, March 29, 2012, 10 am,

Location: AZ Dept of Administration, 100 N. 15th Ave, Room 440, Phoenix, AZ

— Equal Opportunity Employer/Program —

Under Titles VI and VII of the Civil Rights Act of 1964 (Title VI & VII), and the Americans with Disabilities Act of 1990 (ADA), Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975, the Department prohibits discrimination in admissions, programs, services, activities, or employment based on race, color, religion, sex, national origin, age, and disability. The Department must make a reasonable accommodation to allow a person with a disability to take part in a program, service or activity. For example, this means if necessary, the Department must provide sign language interpreters for people who are deaf, a wheelchair accessible location, or enlarged print materials. It also means that the Department will take any other reasonable action that allows you to take part in and understand a program or activity, including making reasonable changes to an activity. If you believe that you will not be able to understand or take part in a program or activity because of your disability, please let us know of your disability needs in advance if at all possible. To request this document in alternative format or for further information about this policy, contact the Department of Economic Security, Division of Developmental Disabilities ADA Coordinator at 602 542-6825 ; TTY/TDD Services: 7-1-1.
